**Narrative Title: NARRATIVE**

2/07/14, at approximately 0653 hours, I was dispatched to the report of a male subject who had a pre-existing medical condition and was having a medical episode near the North tunnel of the Cal Memorial Stadium in Berkeley.

Sergeant T. Wing #12 and I saw the male subject who was later identified as Cal football player AGU, Ted O. (MB-21-S), laying on the ground along the north west plaza level of Cal Stadium. Two male subjects who were later identified as Cal Football athletic trainers were performing CPR on AGU and had deployed the Automated External Defibrillator (AED). JACKSON, Robert (MW-33-E), Head Football Athletic Trainer was giving rescue breaths and monitoring AGU's pulse and JONES, Michael (MW-22-E), Graduate Intern Athletic Trainer was performing chest compressions.

I later spoke with JACKSON and JONES who related the following to me. At approximately 0630 hours, the football team and athletic trainers were conducting their morning warm up by jogging uphill near Bowles parking lot. JACKSON had noticed that AGU was having trouble with the run and appeared to be short of breath. JACKSON said the athletic trainers conducting the warm up removed AGU from the run and drove him in a golf cart toward the Simpson Center with JACKSON on the cart. JACKSON said AGU was alert and conscious while on the golf cart and while driving along the north west plaza of the stadium near North Gate AGU slumped over in the golf cart and lost consciousness. AGU was placed on the concrete ground. JONES ran over to AGU and JACKSON began checking his pulse and breath. After assessing AGU the AED was used and they began CPR. The AED did not advise for a shock but assisted with the CPR process until BFD arrived.

BFD Medic #2 arrived and coordinated with JACKSON and JONES in taking over emergency medical services. BFD transported AGU to Alta Bates Hospital. Sgt. Wing and I provided transportation for JONES who waited in the waiting room for information on AGU. Officer W. Mendoza #62 arrived at Alta Bates Hospital for follow up on AGU's condition. At approximately 0755 hours, Ofc. Mendoza was notified by Alta Bates hospital staff that AGU had passed away.

Nothing further.
